

WAGNER SCHEMMER MARTINS

Junior Full Stack Developer

ABOUT

Developer passionate about shipping ideas to production, from database to deploy. Strong in **JavaScript, HTML/CSS, Supabase and Vercel**, with live projects used by real clients. 3 years of support and infrastructure background, bringing solid networking, Linux and under-pressure troubleshooting skills. Studying offensive security (HTB Academy); I deliver clean, tested, deployed code.

EXPERIENCE

Full Stack Developer — freelance

2025 — present

Institutional websites for real clients and own web apps shipped to production, from requirements to continuous deploy: responsive front-ends, REST APIs, realtime features, auth and admin panels clients operate themselves.

Stack: JavaScript, HTML, CSS, Supabase (Auth, Postgres, Realtime), Node.js, MQTT, Docker, Vercel

User support and maintenance — Help Desk

Support technician · 2022 — 2025

End-user support, computer and network maintenance; educational robotics (sumo robots), building teamwork and complex failure diagnosis.

Stack: Windows/Linux, networking, hardware
